github.com/ediz12 🐙

Self-educated software developer using Python and its twisted/asyncio frameworks for community applications and Lua scripts for online in-game events. I have work experience with Java, Spring Frameworks, Spring Boot, MySQL, Hibernate, JSF, and Git. Used C# and C++ in various projects. Even if my heart is devoted to Python, I love learning new frameworks and languages.

WORK EXPERIENCE

Software Engineer/Developer

Saha Bilgi Technologies 🔗

03/2018 – Present *Istanbul, Turkey*
Testinium/Loadium products: testinium.com / loadium.com

Achievements/Tasks

- Successfully produced and currently maintaining a Central Device Farm Management System with Java, Spring Boot, Spring Framework, JSF, PrimeFaces, Hibernate, Maven, MySQL, Tomcat and Rest API, using Bash scripts for Linux and MacOS distributions.
- Created a tool that simplifies the installation process for the Operations Team on Testinium using the above technologies plus ThymeLeaf framework for frontend.

Student Assistant

Bahçeşehir University Office of Distant Education 🔗

02/2017 – 03/2018

Achievements/Tasks

- Successfully contributed to creating simple tools for Turkish Sign Language online education, mainly with subtitle editing using Python.
- Worked on ItsLearning Rest/SAP API in Python to generate automatic registration to class platforms for students.
